1. Call to Order

Mayor Lloyd Hilgart called the special meeting to order at 6 p.m.

2. 6 p.m. Water Treatment Facility Funding Efforts

Matt Leonard, City Engineer/Public Works Director, provided a brief overview of the possibility of a new Water Treatment Facility. Currently there are potential effects from the level of manganese in the water and one proposed solution is a new Water Treatment Facility. The cost is unknown but expected to be somewhere between \$22 million - \$28 million. One preferred funding option would be from outside assistance or State bonds. Staff requested direction on pursuing possible funding by submitting the item into the State Bonding bill.

It was consensus of the City Council that staff pursue the possibility of funding through the State bonding bill with a request of \$20 million. Mayor Hilgart noted that he would assist in advocating for legislation.

3. Adjournment

By consensus, the meeting was adjourned at 6:25 p.m.
